

Sireț3

Core imagery for AgroTech - Agriculture & food tech

An openly licensed, **unannotated RGB orthomosaic** of a local area in Moldova. It provides the shared geographical workspace for participating teams.

~1.45 km²

IMAGED AREA*

Approx. 145 hectares

3.52 cm / px

REPORTED GSD

Spatial resolution, not accuracy

658.6 MB

SOURCE FILE

One RGB GeoTIFF orthomosaic

LOCATION & ACQUISITION

Sireți area, Republic of Moldova

Strășeni district, northwest of Chișinău.
A local survey, not nationwide coverage.

Map centre	47.122392° N, 28.712051° E
Acquisition	20 May 2025 (UTC)
Provider	3DATA COLLECT
Platform / sensor	UAV / Mavic 3E
Raster dimensions	70,246 × 81,986 pixels; 3 bands
Coordinates	WGS 84 / EPSG:4326

Actual survey footprint / OAM preview

OPEN DATA & PURPOSE

Published through [OpenAerialMap](#) for open mapping and geospatial reuse. The original survey purpose is not specified in the public metadata. No object labels or segmentation masks are supplied with this imagery.

Challenge use: AI-assisted vineyard and row mapping, manual refinement in Marcaj, geometric measurements and walking-route planning.
